this timely book is a comprehensive treatise on the constitutional and legal history behind the power of the modern state to police its citizens dubber explores the roots of the power to police the most expansive and least limitable of governmental powers by focusing on its most obvious and problematic manifestation criminal law

a scholar of hellenistic and prussian history droysen developed a historical theory that at the time was unprecedented in range and depth and which remains to the present day a valuable key for understanding history as both an idea and a professional practice arthur alfaix assis interprets droysen s theoretical project as an attempt to redefine the function of historiography within the context of a rising criticism of exemplar theories of history and focuses on droysen s claim that the goal underlying historical writing and reading should be the development of the subjective capacity to think historically in addition assis examines the connections and disconnections between droysen s theory of historical thinking his practice of historical thought and his political activism ultimately assis not only shows how droysen helped reinvent the relationship between historical knowledge and human agency but also traces some of the contradictions and limitations inherent to that project

the essays compiled in this volume written by distinguished experts present a broad panorama of the most important methodological challenges faced by conceptual history today as well as some more specific contributions regarding the temporal dimension of certain modern concepts at a moment when time and concepts and political concepts in particular are no longer obvious and taken for granted but have themselves become historical matter this book does not limit itself to an updating of the state of the art it also offers very useful lessons for the development of future research into this field

translation is indispensable to transmissions of knowledge across time and place to

understanding how and what others think there is a vast stock of theories about how to translate deriving mainly from controversies about sacred and literary works yet there is little discussion of the distinctive issues involved in translating political and social thought this volume breaks new ground by focusing on them thirteen scholars consider problems arising from the study of translation and the cultural transfer of texts especially novel is the application of these issues to two relatively new disciplines translation studies and the history of concepts begriffsgeschichte this volume opens a discussion of what and how each of them can learn from and contribute to the others
