heoretical context in which many types of couples are addressed

in this book we contend that the psychologist who engages in counseling can be both practitioner and scientist that he can contribute to knowledge while helping clients admittedly few counselors are theorists in the strict sense of the term but inevitably every counselor will bring to his work with clients certain assumptions he will have some underlying rationale vague and implicit though it may be for what he does some hunches about what different clients will do in different situations and some general ideas about the counseling procedures that are apt to be effective if he is to make claims for the efficacy of his practice he must be willing to subject these ideas to empirical test only then can he begin to find out whether what he has done works and how it works only as the counselor makes communicable what he does can his knowledge be imparted to others this book begins with our argument for reconciling the dual roles of practicing counselor and researcher and proceeds to a short guided

tour of current empirical and theoretical approaches to counseling we do not insist upon the adoption of any particular approach to counseling but we do urge the practicing counselor to make explicit his own assumptions and to use them in making verifiable predictions about the observable behavior of clients and counselor psycinfo database record c 2005 apa all rights reserved

part 1 basic issues in counseling practice 1 introduction and overview 2 the counselor person and professional 3 ethical issues in counseling practice part 2 theories and techniques of counseling 4 psychoanalytic therapy 5 adlerian therapy 6 existential therapy 7 person centered therapy 8 gestalt therapy 9 behavior therapy 10 cognitive behavior therapy 11 reality therapy 12 feminist therapy 13 post modern approaches 14 family systems therapy part 3 integration and application 15 an integrative perspective 16 case illustration an integrative approach in working with stan

providing counseling techniques from a broad spectrum of theoretical approaches this book provides multitherapeutic options when working with clients it stresses a need to recognize the client within the context of culture ethnicity interpersonal resource and systemic support more than 200 treatment techniques are included along with 17 treatment plans techniques are arranged according to areas or problems each offering step by step procedures and evaluation means to determine whether or not desired outcomes are being achieved

more than any other text on the market the heart of counseling is effective in helping students to understand the importance of therapeutic relationships and to develop the qualities that make the therapeutic relationships they build with clients the foundation of healing in these pages students come to see how all skills arise from and are directly related to the counselor s development and to building therapeutic relationships student learning ranges from therapeutic listening and empathy to structuring sessions from explaining counseling to clients and caregivers to providing wrap around services and ultimately to experiencing therapeutic relationships as the foundation of professional and personal growth the heart of counseling includes extensive case studies and discussions applying skills in school and agency settings specific guidance on how to translate the abstract concepts of therapeutic relationships into concrete skill sets exploration of counseling theories and tasks within and extending from core counseling skills videos that bring each chapter to life test banks instructor s manuals syllabi and guidance for learning outcomes assessments for professors
